

As a new XM customer, I am disgusted that the National Association of Broadcasters is even attempting to interfere with the success of the XM Radio. XM provides an excellent variety and quality that YOU CANNOT get on regular radio anywhere. I choose to pay for these services and it should not be up to the National Association of Broadcasters to dictate what or what NOT I am permitted to hear. I sincerely urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I have chosen to listen to.
